WHO WE ARE

SOUTH AFRICA IS WINNING. WE PROVE IT.

Ferguson Media is built on a simple conviction: extraordinary things happen in this country every day, and most of them never get told.

01 DOCUMENT PROGRESS

We combine media, technology and youth development to find and tell real stories of progress happening across South Africa every day.

02 AMPLIFY IMPACT

We help brands, government, and development agencies share their impact with the communities that matter – through storytelling that sticks.

03 PROVE THE GOOD

We give brands a credible, broadcast-quality way to prove the good they are doing, content that outlasts campaigns and builds long-term trust.

CHANGE THE NARRATIVE ABOUT SOUTH AFRICA, **ONE DOCUMENTED STORY.**

YOUTH EXCELLENCE

Young South African building businesses, winning competitions and leading in their communities.

INNOVATION & SOLUTIONS

Local people solving real problems, from society and water to help them learn to live in a safe, sustainable environment.

SOCIAL COHESION

Neighbourhoods and communities working together to build a more sustainable environment.

ECONOMIC IMPACT

Small businesses and township economies creating real jobs and building lasting livelihoods.

YOUR ORGANISATION IS DOING GOOD. CAN PEOPLE SEE IT?

01

MONEY SPENT, NO RECORD LEFT

Community projects without documented proof – just spreadsheets and receipts. Nothing to show stakeholders, communities or funders.

02

CSI REPORTS THAT DON'T LAND

Reports list what was spent, not what actually changed for real people. The story behind the numbers never gets told.

03

CAMPAIGNS THAT DON'T CONNECT

Messaging that misses the audiences mainstream media rarely reaches – townships, rural communities, grassroots audiences.

R13.1B Spent on corporate social investment in South Africa in 2025, most of it with no story attached. The gap between doing good and proving good is where Ferguson Media operates.
